Note: All widths are nominal and all weights are approximate. All adhesive-backed product weights do not include release liner. Nu • vu • rite is primarily a projection screen surface. For best results, we recommend rare earth or Neodymium magnets for mag • rite II white, mag • rite II grid, and mag • line. For just • rite grid, due to alignment of grid, full wall installations not recommended. Walltalkers dry erase wallcoverings nuvurite, eraserite, ezrite, kororite, kororite metallics, learnrite, and linerite meet California Indoor Air Quality Specification 01350.
