

High Performance textiles bring a soft, designer touch to walls. Sound softening and made with performance in mind, they wrap walls in a cocoon of quiet sophistication, bringing a thoughtful designer touch to luxury living spaces. Treated with Crypton or Stain Guard protection for stain and water resistance, these textiles are as durable as they are beautiful, without compromise to bio-responsibility or anti-microbial protection and are bleach cleanable.

- Antimicrobial, stain and water resistant, reduce ambient sound, and feature a soft finish
 - Meets commercial grade standards for flame retardance and strength
 - Easy to clean and maintain
- Fiber does not absorb moisture
 - Acrylic backing

APPLICATIONS

Designers	Health Care	Hospitality	Corporate	Institutional	Entertainment
• Commercial Interiors Market	• Retirement • Nursing Homes • Hospitals • Nursing Stations	• Ballrooms • Conference Rooms • Meeting Rooms	• Executive Conference Rooms • General Offices	• School Auditoriums • Government & Mass Transit Buildings • Day Care Centres	• Theatres • Recreational Centres

FLAMMABILITY SPECIFICATIONS

Applied to 0.5-inch thick gypsum wallboard using Dynamite 111 Heavy Duty Clay adhesive.

Flame Spread

25

Smoke Developed

25

Note: The numerical flame spread rating and other test results referenced herein are not intended to reflect hazards presented by this or any other material under actual fire conditions.

Installation and maintenance instructions are enclosed with every Soundbite shipment and should be carefully read prior to installation. For best results, installation is recommended by a qualified textile wallcovering installer.

SPECIFICATIONS

Content	Backing	Weight	Width	Roll Length	Flammability
51% polyester, 49% olefin. 49% post-industrial recycled content	Acrylic	13 ounces / face weight	54"	12'	UBC 8-2 Corner Burn Class A/ASTM E-84
Finish	Colourfastness to Light		Abrasion Resistance		
StainGuard	(AATCC-16) Class 5		(ASTM D-4157-02) Test Method: Wyzenbeek 30,000 Contract Heavy Duty		

Fosshield® Antimicrobial Technology - silver & copper ions are incorporated into the polyester fiber and naturally attack microbes. Fosshield® inhibits the growth of bacteria, mold and fungus, providing permanent protection. Ions bind to any microbes that may be present on the fiber and disable their critical functions (metabolism, respirations and reproduction). Typical examples of microbes of common concern are Methicillin-resistant Staphylococcus aureus (MRSA), the Human rhinovirus (common cold), Streptococcus pyogenes (strep), Legionella pneumophila (Legionnaires disease), Human Coronavirus (SARS surrogate), and Feline Calicivirus (Norwalk virus). Fosshield® is the technology incorporated into the FDA cleared SpectraShield® 9500 N95 surgical respirator mask. In the FDA testing, Fosshield® began microbe prevention immediately and eliminated 99.99% of certain odour-causing bacteria after one hour of contact with the respirator surface.
